KEY PROJECTS

ROAR - AI-Coached Intake Agent | ING People Analytics (MBA Capstone) May 2026-July 2026

- Researched and validated a new internal service concept to address incomplete, inconsistent self-service intake forms causing repeated back-and-forth between requesters and translators
- Designed and prototyped an AI-coached intake flow (built on Microsoft Copilot, ING's platform) that walks users through structuring their request and understanding its impact before submission — developed to be platform-agnostic and reusable beyond ING; validated the concept from initial research through to a proposal ready for stakeholder handover

CBAM Sentinel -EU Regulatory Compliance Business Case | Accenture, Amsterdam Jan 2026 – May 2026

- Validated and scoped a six-agent AI compliance workflow (Camunda 8, AWS Bedrock AgentCore, LangGraph) for a multinational client, translating a new EU regulation (CBAM) into a structured, financially grounded business case
- Coordinated technology, compliance, and business stakeholders through the assessment and validation phases; supported recommendations projecting up to €850M in client savings and prepared the workflow for handover to implementation

EXPERIENCE

Program Manager - Strategy & Operations | Forward Edge Sep 2023 – Jan 2025

- Built the financial and qualitative business case behind ~€4.6M in funding recommendations across six government and civil-society engagements, through structured secondary research and stakeholder assessment
- Facilitated cross-stakeholder workshops and built Python/Tableau dashboards that improved campaign decisions across 70 Delhi constituencies

Program Manager - Operations & Strategy | Inclusive Minds Sep 2022 – Aug 2023

- Led a 20-member field team across 10 Karnataka districts, standardizing citizen feedback collection through new survey protocols and training
- Cut validation errors from 25% to 5% with a new data quality-control checklist; briefs informed government scheme-rollout decisions

Program Manager - Delivery | Head Held High Foundation Oct 2021 – Sep 2022

- Delivered a ~€92K UNDP-funded employability programme reaching 20,000 youth across 65 institutions
- Managed program budget and milestone-based UNDP donor reporting; secured employment for 200 youth through employer-partnership pipelines

Associate Program Manager - Monitoring & Evaluation | Gram Vikas Aug 2020 – Sep 2021

- Led a 10-member M&E team tracking water-infrastructure adoption across 5,000 villages under Har Ghar Jal
- Cut reporting time by 20% and improved data accuracy by training field staff on monitoring protocols; analyzed 300+ field reports to identify adoption gaps

Software Engineer | LTIMindtree (L&T Infotech) Aug 2013 – Oct 2015

- Built front-end features for banking and e-commerce client applications; resolved production defects in collaboration with QA and onshore teams
